Preface to Latest (NSQF Level 4 Compliant) Edition

Directorate General of Training (DGT) under the Ministry of Skill Development & Entrepreneurship, undertakes steps from time to time to improve its various aspects in line with changing market and industry requirements. The curriculum of each CTS trade has been reoriented with appropriate National Skill Qualification Framework (NSQF) level. Revised curriculum for Electronics Mechanic trade has been made NSQF Level 4 compliant under Electronics and Hardware sector.

In keeping these latest changes, this volume has been updated to be fully in line with the latest curriculum of Electronics Mechanic trade as per Modular pattern. It contains complete and comprehensive well illustrated theory matter in addition to rich collection of multiple choice questions on All India Trade Test pattern. Thus this book, complete in all respects, fully serves the needs of instructors and especially the trainees to thoroughly understand and learn and prepare for the trade test with confidence.

New topic Internet of Things (IoT) has been incorporated as per the Latest Syllabus.

This book is complete in all respects for the theory subject of Electronic Mechanic trade for its full duration of two years.

Additional Special Feature: A big set of 12 Model Papers as per Latest NSQF Level-4 A.I.T.T. Online CBT Exam (6 Papers each for 1st year and 2nd year, **including Bharat Skills MCQs**) has been given for the benefit of trainees to give online CBT exam with confidence and achieve success.

It is firmly believed that this **3-in-1 volume,** viz.,

1. **Trade Theory**
2. **Assignment (MCQs with Key)**
3. **Model Papers (Solved) inclusive of all Multiple-Choice Questions given in three Sample Papers of Bharat Skill for Annual A.I.T.T. Exam (CBT)**

will be of great help to trainees to learn and understand theory subject of Electronics Mechanic trade and also equip them to face Annual A.I.T.T. Exam (CBT) with confidence.

It is hoped that my effort will be able to fulfil the requirements of trainees and instructors. Suggestions from learned readers will be gladly accepted.

Contents

NSQF (Level-4) compliant Competency-based Curriculum for Electronics Mechanic (Latest Syllabus)..... ix – xii

1st Year

1. Introduction..... 3–9

Electronic Mechanic; Safety Precautions; First Aid; Artificial Respiration; Fire Extinguishing; Safety Symbols; Earthing; Hand Tools; Response to Emergencies; PPEs–Personal Protective equipments

Assignment/Test—Solved..... 8–9

- Multiple Choice Questions
- Key to Multiple Choice Questions

2. Fitter Theory..... 10–28

Introduction; Files; Hammer; Chisels; Hacksaw; Steel Rule; Try-square; Vernier Caliper; Micrometer; Screw-Pitch Gauge; Marking Tools; Drilling Machine; Drill; Tap; Die; Fasteners; Holding Devices; Threads and Their Applications; Metals and Alloys

Assignment/Test—Solved..... 27–28

- Multiple Choice Questions
- Key to Multiple Choice Questions

3. Electrical Basics..... 29–45

Electric Charges; Electric Current; E.M.F. and Potential Difference; Resistance; Basic Electrical Terms; Basics of AC and DC; Phase; Conductors, Insulators and Semiconductors; Ohm's Law; Electrical symbols

Assignment/Test—Solved..... 45

- Multiple Choice Questions
- Key to Multiple Choice Questions

4. Electrical Cables..... 46–53

Wires and Cables; Measurement of Wires; Types of Wires; Types of Cables; Joint in Wires/Cables; Precautions while using Aluminium Cables; Cable Termination

Assignment/Test—Solved..... 52–53

- Multiple Choice Questions
- Key to Multiple Choice Questions

5. Measuring Instruments..... 54–64

Introduction; Torques of Indicating Instruments; PMMC Type Ammeter (Permanent Magnet Moving Coil Ammeter); Range Extension of an Ammeter; Conversion of Ammeter into Voltmeter; Analog Multimeter; DVM (Digital Voltmeter); DMM (Digital Multi Meter); Transistorised LCR Bridge; Digital LCR meter; Moving Iron Meter; Hot Wire Meter

Assignment/Test—Solved..... 63–64

- Multiple Choice Questions
- Key to Multiple Choice Questions

6. Cells and Batteries..... 65–76

Introduction; Voltaic Cell; Daniel Cell; Lechlanche Cell; Dry Cell; Lead Acid Cell; Edison Cell Or Nickel-Iron Cell; Nickel Cadmium Cell; Source and Load E.M.F., Grouping of Cells; Capacity of A Battery; Battery Charging; Battery Charger; Charged and Discharged Conditions of a Battery; Relative Density and Hydrometer; Maintenance of Batteries; Efficiency of a Battery

Assignment/Test—Solved..... 74–76

- Multiple Choice Questions
- Key to Multiple Choice Questions

7. CRO (Cathode-Ray-Oscilloscope)..... 77–83

Introduction; Block diagram of CRO; CRT : Cathode-Ray-Tube; Deflection System Used in CROs; Circuit of CRO; Cathode Ray Oscilloscope's Panel; Measurement of Voltage and Current by CRO; Measurement of Phase and Frequency by CRO; Multi Trace Oscilloscope; Storage Oscilloscope; Oscilloscope Probes; DSO: Digital Storage Oscilloscope

Assignment/Test—Solved..... 83

- Multiple Choice Questions
- Key to Multiple Choice Questions

8. Soldering and Desoldering..... 84–87

Soldering; Solders; Wax or Fluxes; Soldering By Electric Soldering Iron; Soldering Precautions; Electric Soldering Iron; Soldering Gun; Soldering Station; Desoldering Station

Assignment/Test—Solved..... 87

- Multiple Choice Questions
- Key to Multiple Choice Questions

9. Active and Passive Components..... 88–114

Passive Components; Kirchhoff's Voltage Law and Kirchhoff's Current Law (KVL and KCL); Resistors; Inductors; Capacitors

Assignment/Test—Solved.....112–114

- Multiple Choice Questions
- Key to Multiple Choice Questions

10. Magnetism and Electromagnetism..... 115–121

Magnet; Properties of a Magnet; Molecular Theory of Magnetism; Types of Magnets; Preparation of Artificial Magnet; Electromagnetism; Magnetic Terms; Electric Bell; Relay; Types of Relays; Electro Magnetic Relay; Thermal Relay

Assignment/Test—Solved..... 120–121

- Multiple Choice Questions
- Key to Multiple Choice Questions

11. Power Supply Circuits 122–141

Transistor and Diode Numbering; Transistor Bases; Typical Identification Numbers of Semiconductor Devices; Semi-Conductors; 'P' and 'N' Type Materials; P-N Junction; Forward and Reverse Biasing; Diode's Specifications; Filter Components; Ripple Frequency and Ripple Factor; Zener Diode; Varactor Diode; Tunnel Diode; Diode Packages; Half-Wave Rectifier; Full Wave Rectifier; Comparison of Half-wave and Full-wave Rectifiers; Bridge Rectifier; Battery Eliminator; Filter Circuits According to Work; Filter Circuits According to Input Component

Assignment/Test—Solved..... 139–141

- Multiple Choice Questions
- Key to Multiple Choice Questions

12. Transformers and 3-Phase System 142–151

Working Principle of Transformer; Power Transformer Construction; Classification of Transformers; Types of Cores used in Transformers; Specifications of a Transformer (Transformers Classified as per Use); Step-up-and Step-down Transformers; Isolation Transformer; Turns Ratio; Impedance Ratio; Transformer Efficiency; Transformer Losses; 3-phase System; Power Factor; Importance of Power Factor in the Industry; Reactive Power; 3-phase Transformers

Assignment/Test—Solved..... 150–151

- Multiple Choice Questions
- Key to Multiple Choice Questions

13. Regulated Power Supplies 152–157

Introduction; Voltage Regulation; Zener Diode Voltage Regulator; Transistorised Regulated Power Supply; Regulated Power Supply using 78XX and 79XX ICs; Regulated Power Supply using IC LM 317/LM 337; Regulated Power Supply using Op-Amp. IC 741; Regulated Power Supply using IC 723; Linear Power Supply; Panel view of Regulated Power Supply Unit; Power Switch; Heat-sink used in Power Supply

Assignment/Test—Solved..... 156–157

- Multiple Choice Questions
- Key to Multiple Choice Questions

14. Transistors 158–167

Transistor; Construction of Transistor; Working of A PNP Transistor; Working of A NPN Transistor; Transistor Configurations; Transistor Characteristics; Transistor's Voltage and Current Terminology; Transistor Parameters; Purpose of Transistor Biasing; Junction Temperature; Junction Capacitance; Frequency of Operation; Transistor as a Switch; Transistor as Amplifier; Input and Output Impedance; Transistor Packages

Assignment/Test—Solved..... 166–167

- Multiple Choice Questions
- Key to Multiple Choice Questions

15. Amplifiers 168–183

Introduction; Classification of Amplifiers; Amplifiers Classified on the Basis of Frequency; Amplifiers Classified on the Basis of Mode of Operation; Amplifiers Classified on the Basis of Coupling Methods; DB and DBM (decibel and decibel-milliwatt); Amplifiers Classified on the Base of Power; Cascade Amplifier; Feedback; Negative Feedback Amplifier Circuits; Emitter Follower; High Frequency Transistor Limitations; Transistor Biasing Circuits; Bias Stabilisation Techniques; Voltage Amplifier and Voltage Gain; Loading Effect; Transistor Configurations

Assignment/Test—Solved..... 180–183

- Multiple Choice Questions
- Key to Multiple Choice Questions

16. Oscillators 184–191

Introduction; Essential Requirements of an Oscillator; Types of Oscillators; Tuned Collector Oscillator; Hartley Oscillator; Colpitt's Oscillator; Clapp Oscillator; Crystal Oscillator; Phase Shift RC Oscillator; Multivibrator; Wein Bridge Oscillator; Transistor Power Ratings; Analog IC Tester

Assignment/Test—Solved..... 190–191

- Multiple Choice Questions
- Key to Multiple Choice Questions

17. Wave Shaping Circuits 192–197

Introduction; Time Constant of RC Circuit; Time Constant of RI Circuit; Wave Form; Waveform Terminology; Differentiating Circuit; Integrating Circuit; Clipping Circuits; Clamping Circuits

Assignment/Test—Solved..... 197

- Multiple Choice Questions
- Key to Multiple Choice Questions

18. Power Electronic Components 198–203

Introduction; FET (Field Effect Transistor); FET Parameters; Application of FET in Measuring Devices; SCR (Silicon Controlled Rectifier); TRIAC; DIAC; UJT (Uni Junction Transistor); MOSFET (Metal Oxide Semiconductor Field Effect Transistor)

Assignment/Test—Solved..... 203

- Multiple Choice Questions
- Key to Multiple Choice Questions

19. MOSFET and IGBT 204–208

Introduction; FET: Field Effect Transistor; MOSFET: Metal Oxide Semiconductor; Field Effect Transistor; Power Mosfet; IGBT: Insulated Gate Bipolar Transistor; Power IGBT

Assignment/Test—Solved..... 207–208

- Multiple Choice Questions
- Key to Multiple Choice Questions

20. Opto Electronic Components 209–211

Led (Light Emitting Diode); Photo Diode (Photo Voltaic Cell); Photo Transistor; IRLED (Infra-red Light Emitting Diode); LDR (Light Dependent Resistor); Optical Sensor; Opto-Couplers; Opto-isolation; Laser Diode

Assignment/Test—Solved.....211

- Multiple Choice Questions
- Key to Multiple Choice Questions

21. Basic Gates 212–234

Introduction; Logic Levels; Introduction to Digital Electronics; Digital Codes; Binary System; Binary Arithmetic; Boolean Algebra; Octal System; HexaDecimal Number System; BCD, XS-3 and Gray Codes; ASCII Code; Basic Logic Gates; Combinational Logic Circuits; Universal Property of NAND and NOR Gates; Logic Families; Multiple Number Logic Gate Packages; Different IC Packages

Assignment/Test—Solved..... 233–234

- Multiple Choice Questions
- Key to Multiple Choice Questions

22. Combinational Logic Circuits 235–242

Introduction; Adder; Subtractor; 4-bits Adder / Subtractor; Encoder and Decoder; Multiplexer and Demultiplexer

Assignment/Test—Solved..... 241–242

- Multiple Choice Questions
- Key to Multiple Choice Questions

23. Flip-Flops and Counters 243–249

Introduction to Flip-flop (FF); SR Latch or SR Flip-flop; Gated SR Latch or Clocked SR Flip-flop; D Latch or D Flip-flop; Edge Triggered D flip-flop; JK Flip-flop; T Flip-flop or Toggle; Master-Slave Flip-flop; Applications of Flip-flops; Introduction to Counter; 4-bit Asynchronous or Ripple Counter; Decade Counter; Ring Counter; Twisted Ring Counter; Up-down Counter; Synchronous Counter

Assignment/Test—Solved..... 248–249

- Multiple Choice Questions
- Key to Multiple Choice Questions

24. Operational Amplifiers 250–253

Introduction; Differential Amplifier; Characteristics; Non-inverting Voltage Amplifier; Inverting Voltage Amplifier; Voltage Comparator; Other Applications of Operational Amplifier; Linear and Non-linear Applications of operation Amplifier

Assignment/Test—Solved..... 253

- Multiple Choice Questions
- Key to Multiple Choice Questions

25. Timer Circuits..... 254–257

Introduction; IC 555; Block Diagram of IC 555; IC 556; IC 555 as Astable Multivibrator; IC 555 as Monostable Multiuibrator; IC 555 as VCO (Voltage Controlled Oscillator); IC 555 as Frequency Divider

Assignment/Test—Solved..... 257

- Multiple Choice Questions
- Key to Multiple Choice Questions

Appendix : 1st Year Model Papers 1 to 6 (Annual A.I.T.T. Exam (CBT) including Bharat Skills MCQs – NSQF Level – 4) 258–276

2nd Year

1. Electronic Cables and Connectors 3–9

Introduction; Types of Electronic Cable; Cable Trays; Cables Diagram Conventions; Connectors

Assignment/Test—Solved..... 8–9

- Multiple Choice Questions
- Key to Multiple Choice Questions

2. Computer Hardware and Networking 10–22

Introduction; Basic Blocks of a Computer; Hardware; Motherboard; BUS; Input/output Devices; Keyboard; Mouse; Monitor; FDD (Floppy Disc Drive); HDD (Hard disc drive); Pen Drive; CD and DVD (Compact Disc and Digital Video Disc); CDD and DVDD (Compact Disc Drive and Digital Video Disc Drive); Software; Printers

Assignment/Test—Solved..... 21–22

- Multiple Choice Questions
- Key to Multiple Choice Questions

3. Computer OS..... 23–33

Introduction; Windows O.S. (Windows Operating System); Files; Folder; Saving a File; Copying a File; Deleting a File; Retrieving (Restoring) a File; Post (Power On Self Test); BIOS (Basic Input/Output System) or Booting; Ports; Internet; Networking of Computers; LAN (Local Area Network); Ethernet; WAN (Wide Area Network); MAN (Metropolitan Area Network); ARCNET (Attached Resource Computer Network); PROFIBUS (Process Field Bus); Controlnet

Assignment/Test—Solved..... 32–33

- Multiple Choice Questions
- Key to Multiple Choice Questions

4. Operating Windows and MS Office 34–43

Introduction; MS Windows; Starting a Computer; File Management; Display and Sound Properties; Font Management; Installation/removal of a Program; Setting and using of 'Control Panel'; Application of 'Accessories'; Various I.T. Tools Applications and Drawing Features; Components of Desktop; MS Word (Microsoft Word); Mail Merging; Tables and Borders; Printing of Document; Powerpoint; To shut Down Windows; Internet

Assignment/Test—Solved..... 43

- Multiple Choice Questions
- Key to Multiple Choice Questions

5. SMD Technology..... 44–47

Introduction; Types of SMD Devices; Advantages of SMD; Soldering of SMD; Reflow Soldering of SMD; Tips for Hardware Selection; Inspection of SMD PCB; Electronic Circuit Simulation Software; PGA (Progammable Gate Array); IC Crimping Tools

Assignment/Test—Solved..... 47

- Multiple Choice Questions
- Key to Multiple Choice Questions

6. Protection Devices 48–51

Introduction; Fuse Rating; Fuse; MCB (Miniature Circuit Breaker); ELCB (Earth Leakage Circuit Breaker); Contactor; Relay; Electromagnetic Relay; Thermal Relay

Assignment/Test—Solved..... 51

- Multiple Choice Questions
- Key to Multiple Choice Questions

7. Electrical Motors..... 52–62

D.C. Motor; Fundamental Requirements of a DC Motor; Name Plate and Specifications of DC Motor; Fleming's Left Hand Rule; Armature Reaction; Starter; Types of D.C. Motors; Speed Control of D.C. Motors; Reversing the Direction of Rotation of DC Motor; AC Motor; Types of A.C. Motors; Name Plate and Specifications of AC Motor; Synchronous Speed; Starting of Single Phase Motor; Starting of a 3-phase Motor; Speed Control of Induction Motors; Reversing the Direction of Rotation of an Induction Motor; Overload Relay (OLR); No-volt Coil (NVC); L.P. Motor; Stepper Motor

Assignment/Test—Solved..... 61–62

- Multiple Choice Questions
- Key to Multiple Choice Questions

8. Radio Wave Propagation and Antennas 63–72

Introduction; Ionosphere; Types of Radio Wave Propagation; Terms Related to Radio Wave Propagation; Introduction to Antenna; Principle of Radiation; Antenna Parameters; Types of Transmitting Antenna; Various Antennas; Transmission Lines

Assignment/Test—Solved..... 72

- Multiple Choice Questions
- Key to Multiple Choice Questions

9. Modulation and Detection..... 73–85

Introduction; Carrier Waves; Signal Wave; Need of Modulation; Types of Modulation; Percent of Modulation; Modulation Index; Side Band; BandWidth; Limitations of Amplitude Modulation; Amplitude Modulator Circuits; High-Level and Low-Level Modulation; SSB or Single Side Band Transmission; Frequency Modulator Circuits; Necessity of Detection; Features of a Detector Circuit; AM Diode Detector; AVC Or AGC; Simple A.V.C. Circuit; Delayed A.V.C. Circuit; FM Detector Circuit

Assignment/Test—Solved..... 84–85

- Multiple Choice Questions
- Key to Multiple Choice Questions

10. Radio Receivers and Transmitters..... 86–103

Fundamental Principles of Receivers; Types of Radio Receivers; Frequency Converter; Conversion Gain; Characteristics of a Super Heterodyne Receiver; Advantages and Disadvantages of Superhet Receiver; Noise Limiter; Image Frequency; Selection of I.F.; Tuning Ratio; C.W. Reception; Communication Receiver; F.M. Receiver; Pre-emphasis and De-emphasis; AFC in FM Receivers; Frequency Spectrum and Wave Ranges; Band Switches; IF and RF Alignment in Radio Receivers; Fault Finding in Radio Receivers; Introduction to Transmitter; AM Transmitter; FM Transmitter; Transreceiver

Assignment/Test—Solved..... 100–103

- Multiple Choice Questions
- Key to Multiple Choice Questions

11. Digital and Satellite Communications 104–116

Introduction; Pulse Code Modulation (PCM); Sampling and Quantization; Demodulation or Regeneration of PCM Wave; Delta Modulation; Multiplexing; Digital Modulation Techniques; Demultiplexing; AM, FM, PAM, PPM, PWM Signals; Microwave; Satellite Communication System; Radar; I.L.S. (Instrument Landing System)

Assignment/Test—Solved.....115–116

- Multiple Choice Questions
- Key to Multiple Choice Questions

12. Microprocessors and Microcontrollers 117–139

Introduction; LSI and VLSI (Large Scale Integration and Very Large Scale Integration); Microprocessor 8085; Architecture (Block Diagram) of 8085; Pinout of 8085; Bus System of Microprocessor 8085; ICs used with 8085; Interfacing Memory ICs to 8085; Interfacing PPI 8255 (Programmable Peripheral Interface 8255); Instruction Set of 8085; Introduction to Microcontroller; Addressing Modes; Instruction Cycle; Timing Diagram for 8085; Interrupts; Comparison of Microprocessor and Microcontroller; Architecture of 8051; Pinout of Microcontroller 8051; Memories used with Microcontroller 8051; Register Banks; Mapping Memory of Microcontroller; Special Function Registers (SFRs); Input/output Ports; Timer and Counting Functions; Serial Communication; Instruction Set of 8051; Microcontroller 8052 (MCS 8052)

Assignment/Test—Solved..... 138–139

- Multiple Choice Questions
- Key to Multiple Choice Questions

13. Sensors, Transducers and Applications 140–156

Introduction to Sensor; Passive Transducers (Externally Powered Transducers); Active Transducers (Self-generating Transducers); Characteristics of Transducers (Sensors); RTD (Resistance Temperature Detector); Thermocouple; Thermostat; PT 100 Sensor; Inductive Sensor; Capacitive Sensor; Photo Emission; Voltaic Cell; Conductive Cell; Strain Gauge; Load Cell; LDR (Light Dependent Resistor); Earthing; Shielding; Safety Measures for Sensors; Rotary Encoder; Solenoid Valve; Float Switch; Water Level Sensor; LVDT (Linear Variable Differential Transformer); **IoT : Internet of Things, Components & Technologies of IoT, IoT Architecture**

Assignment/Test—Solved..... 156

- Multiple Choice Questions
- Key to Multiple Choice Questions

14. Fibre-optic Communications 157–162

Introduction; Construction of Fibre-optic Cable; Advantages of fibre-optic Cable Over other Media; Working Principle of Fibre-optic Cable; Types of fibre-optic Cable; Testing of Fibre-optic Cable; Losses in Fibre-optic Cable; Specifications of Fibre-optic Cable; Properties of Glass Fibre-optic; Splicing and Jointing of Fibre-optic Cable; Fibre-optic Cable Connector; Encoding of Light; Laying of Fibre-optic Cable

Assignment/Test—Solved..... 162

- Multiple Choice Questions
- Key to Multiple Choice Questions

15. 7-Segment Display, Registers and Memory 163–168

7-segment Display; 7-segment Display Circuits; Shift Registers; SISO (Serial-in Serial-Out) Shift Register; SIPO (Serial-in parallel-out) Shift Register; PISO (Parallel-in Serial-out) Shift Register; PIPO (Parallel in-parallel-out) Shift Register; Bidirectional Shift Register; Memory; Types of Memories; ROM (Read Only Memory); PROM : (Programmable Read Only Memory); EPROM : (Erasable PROM); RAM : (Random Access Memory); SRAM (Static RAM); DRAM (Dynamic RAM); Digital IC Tester

Assignment/Test—Solved..... 168

- Multiple Choice Questions
- Key to Multiple Choice Questions

16. Digital Panel Meter..... 169–175

Introduction; LCD (Liquid Crystal Display); LED (Light Emitting Diode); 7-segment Display; Decoder/driver IC; Multiplexer; Types of 7-segment LED Display; DPM (Digital Panel Meters); Different Sizes of LCDs; Decoder/driver IC used with LCD; Scrolling Display; Driver IC 7106, 7107 for LED/LCD; Display Panel

Assignment/Test—Solved..... 174–175

- Multiple Choice Questions
- Key to Multiple Choice Questions

17. SMPS (Switch Mode Power Supply) 176–185

Introduction; Manual Controlled Voltage Stabilizer; Automatic Voltage Stabilizer; Servo Voltage Stabilizer; Buck-boost Transformer; Voltage cut-off System; SMPS (Switch Mode Power Supply); Chopper Circuits; DC-to-DC Converters; PWM (Pulse Width Modulation); Faults and their Rectification in Voltage stabilizers

Assignment/Test—Solved..... 185

- Multiple Choice Questions
- Key to Multiple Choice Questions

18. UPS (Uninterruptible Power Supply) 186–203

Introduction; Types of UPS; Features Added to UPS; Specifications of a Typical UPS; Difference Between Inverter and UPS; Power Range of UPS; Selection of UPS; Calculation of Load Power; UPS Circuit; PCB (Printed Circuit Board); PCB For SMD Components; Faults and their Rectification in UPS; Emergency Electric Supply System; Electrical Wiring; Earthing; Earth Resistance Measurement; Calculation of Load Power; Power Factor; Batteries; Grouping of Cells; Battery Charging; Maintenance of Batteries; Inverter; Battery Charging Circuits used in Inverters; Inverter's Power Rating; Inverter's Changeover Period; Overload Protection; Low Battery Cut-off Circuit; Battery Level; Installation of Inverter; Faults and their Rectification in Inverters

Assignment/Test—Solved..... 202–203

- Multiple Choice Questions
- Key to Multiple Choice Questions

19. Solar Power 204–210

Introduction; Need of Renewable Energy Source; Global Warming; Solar Energy; Solar Radiation; Solar Photo Voltaics; Principle of Solar Cell; Solar Cells; Solar Panel; Factors Affecting PV Module Output; SPV or Solar Photo Voltaic System and Key Benefits; Difference between SPV and Conventional Power; Solar Charge Controller; Precautions while Working with Solar System

Assignment/Test—Solved..... 209–210

- Multiple Choice Questions
- Key to Multiple Choice Questions

20. Cell Phones 211–218

Introduction; Cell Phone System; Frequency Band Alloted to Cellular Telephone Service; Roaming; GSM (Global System for Mobile); CDMA (Code Division Multiple Access); Block Diagram of Cell Phone; Cell Phone Features; Cell Phone Faults and their Remedies

Assignment/Test—Solved..... 217–218

- Multiple Choice Questions
- Key to Multiple Choice Questions

21. LED Lights 219–221

Introduction; LED (Light Emitting Diode); LED Light Panel; Stacking of LEDs; Driving of LED Stacks

Assignment/Test—Solved..... 221

- Multiple Choice Questions
- Key to Multiple Choice Questions

22. LCD and LED TV Receivers 222–251

Introduction; Principle of Movie Picture; Outline of Telecasting; TV Frequency Range; TV Communication Range; TV Camera; Scanning; Video Signal; Composite Video Single; SSB or Single Side-band Transmission; Aspect Ratio; Outline of TV Receiver; Monochrome TV Circuits; RF Tuning; Monochrome Picture Tube; Video Amplifier; Sync. Separator and Wave Shaping Circuits; AGC or Automatic Gain Control; Horizontal Oscillator and Amplifier; EHT or Extra High Tension Supply; Vertical Oscillator and Amplifier; Sound Section; Introduction to Colour TV; Compatibility; Primary Colours and their Mixing; Colour TV Camera; Matrix; Colour TV Systems; Composite Colour Plexed Video Signal; Colour TV Receiver; Colour Picture Tube; Degaussing Coil; OSD or on Screen Display; Difference between Monochrome and Colour Picture Tubes; TV Remote Control; Types of Remote Control; Trouble shooting in remote Controls; LCD TV; LED TV; Plasma TV; Fault Finding in T.V. Receiver; IPS Panels; Interfaces used in CTV; 3-D TV

Assignment/Test—Solved..... 249–251

- Multiple Choice Questions
- Key to Multiple Choice Questions

Appendix : 2nd Year Model Papers 1 to 6 (Annual A.I.T.T. Exam (CBT) including Bharat Skills MCQs – NSQF Level – 4) 252–271

Appendix : Symbols used in Electronics ..... i–viii
